

Product Information

Rabbit Serum

Product Number **R 9133**

Product Description

Rabbit Serum is a pooled preparation obtained from a normal donor population.

Immunoelectrophoresis versus anti-rabbit serum results in multiple arcs of precipitation. The presence of endogenous antibodies has not been assayed.

Normal rabbit serum is often used as a blocking agent or negative control in immunoassays.

Protein concentration is determined by Biuret.

Reagent

This product is provided as a liquid containing preservative.

Precautions and Disclaimer

For R&D use only. Not for drug, household, or other uses. Consult the MSDS for information regarding hazards and safe handling practices.

Storage/Stability

Store at 2-8 °C for up to one month.

For extended storage, the solution may be frozen in working aliquots. Repeated freezing and thawing is not recommended. Storage in "frost-free" freezers is not recommended.
