Operator and Equipment Safety

- Place the ESH instrument upright on a clean, flat, stable, horizontal surface, away from any source of excessive heat and close to an easily accessible, properly grounded power supply outlet. Do not run the instrument in any other position
- Do not open the housing without first unplugging the instrument from the power source
- Do not expose the ESH instrument to liquid. If this happens, immediately switch off and disconnect the pump from the power outlet, and then decontaminate the ESH instrument
- Before cleaning, shut down the ESH and disconnect it from the power source
- The power supply must be protected by a fuse below the main connection
