Information on improvement of primary packaging material

Item 101697 Benzonase® suitable for biopharmaceutical production EMPROVE bio®, purity grade I (99%), 5.000.000 U/vial

Dear customer,

Please be informed that Merck Millipore has changed the primary packaging of the items 101697 Benzonase® suitable for biopharmaceutical production EMPROVE bio®, purity grade I (99%), 5.000.000 U/vial.

As of batch K42021097, white Nunc tubes with a plug seal screw cap will be used instead of blue Nunc tubes. The advantages of the white Nunc tubes are a tighter closure will less risk of leakages or contamination. The remaining packaging material stays the same.

The specification of the above product has not been changed.

Sincerely,

Merck KGaA

i.A.
